

Profile of Children in Care

Number of children in care at the end of the current quarter, and the median number of days in care over their current status and over the course of the entire time they've been in any form of court-involved protective status.

Status	Children	% of Total	Median Days in Care	
			Current Legal Status	Entire Legal Status
COPS	5,720	27%	113	151
TC	11,030	53%	130	249
PC	3,576	17%	395	1,112
PPLA	563	3%	330	907
Total	20,889	100%		

New Report Rate

Percentage of children with a new substantiated or indicated report that was received within one year after the closure of a court case, averaged over the last four quarters.

2.4%

Exits from Care

Number of children exiting care over the last four quarters.

Exits	Number of Children				AVG	% of Total
	Q4 2020	Q1 2021	Q2 2021	Q3 2021		
Reunification	1,247	1,168	1,137	1,236	1,197	44%
Adoption	438	368	390	428	406	15%
Guardianship	127	128	150	136	135	5%
Relatives	798	649	732	709	722	26%
Emancipations	203	168	226	261	215	8%
Other	40	60	62	58	55	2%
Total	2,853	2,541	2,697	2,828	2,730	100%

Length of Stay Upon Exiting Care

Median number of days children were in care prior to exit over the last four quarters.

Exits	Median Number of Days				AVG
	Q4 2020	Q1 2021	Q2 2021	Q3 2021	
Reunification	306	349	309	296	315
Adoption	1,013	1,001	1,013	1,047	1,019
Guardianship	279	372	255	303	302
Relatives	342	325	322	310	325
Emancipations	791	1,030	971	924	929
Other	112	249	316	151	207

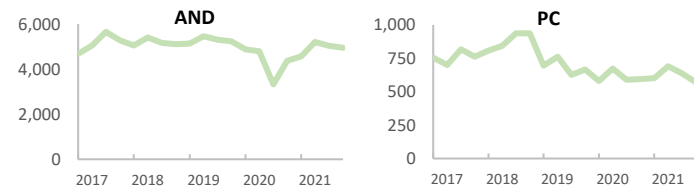

Removal Reasons

Number of children removed from their homes over the last four quarters, and the reasons documented for those removals. Note that multiple removal reasons can be documented for a child. Accordingly, the total number of documented reasons (not shown) will be greater than the number of children removed.

	Q4 2020	Q1 2021	Q2 2021	Q3 2021	AVG	% Children
	2020	2021	2021	2021		
Total Children Removed	2,491	2,959	2,774	2,893	2,779	
Children Removed (by category)						
Parental Alcohol/Drug	753	821	945	1,006	881	32%
Delinquency/Unruly	138	144	155	133	143	5%
Dependency	929	1,023	1,083	1,138	1,043	38%
Neglect	803	909	984	1,030	932	34%
Physical Abuse	398	435	465	483	445	16%
Sexual Abuse	39	60	74	65	60	2%
Other	856	836	934	915	885	32%
Missing Data	5	1	2	2	3	0%

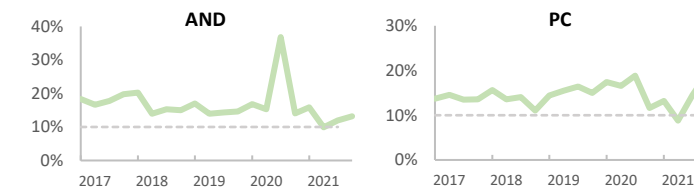

Incoming Caseloads

New filings and transfers and reactivations, by quarter

Overage Rates

Percent of cases pending over time guideline, by quarter (Target is <10%)

PURPOSE OF THE REPORT AND DATA SOURCES

The data contained in this report, as well as in the individualized county-specific companion Permanency Docket Quarterly reports, is designed to provide a foundation for initiating conversations between the child welfare agency and the juvenile court in order to improve local practices and better understand those factors which contribute to county-level performance. Courts and child welfare agencies are encouraged to take advantage of the additional resources available on the Children and Families Section's webpage at: www.supremecourt.ohio.gov/JCS/CFC. Child welfare data was obtained from the Statewide Automated Child Welfare System (SACWIS) administered by the Ohio Department of Job and Family Services. Court caseload and performance data was obtained from the Case Management Section of the Supreme Court of Ohio. The data is considered accurate as of the date of the report.

UNDERSTANDING THE METRICS

PROFILE OF CHILDREN IN CARE: This table displays the number of children in an Abuse, Neglect, or Dependency (AND) dispositional status at the end of the current quarter under the following types of care: court ordered protective supervision (COPS, which includes COPS, TCOPS, and COPS Extension), temporary custody (TC, which includes TC, TCO, TC 1st Extension, TC 2nd Extension, Emergency Custody, and Ex Parte), permanent custody (PC, which includes Permanent Custody and Permanent Surrender), and planned permanent living arrangement (PPLA). Also shown is the median amount of time, in days, that these children have been in that status, as well as the median amount of time, in days, the children have been in any status since they initially became involved with the court (e.g., some children in PC spent time initially TC, thus the entire time spent in both is shown).

NEW REPORT RATE: The figure shown reflects the percentage of children who had a new substantiated or indicated (S/I) report within one year after having a court case closed. Please note that this measure differs from the federal Child and Family Services Review measure of recurrence because it is limited to children who had a new S/I report after the closure of the court case.

EXITS FROM CARE AND LENGTH OF STAY UPON EXITING CARE: Shown in this pair of tables are the number of children leaving foster care across the state by the type of placement upon discharge over each of the last four quarters. As used here, "Guardianship" includes non-relative legal custody. The relative proportion of total exits for each discharge type, averaged over the four quarters, is also displayed. The second table displays the median amount of time in days to the identified discharge type.

REMOVAL REASONS: Shown in the table are the total number of children removed from their homes each quarter, along with the number (and percentages) of those children who were documented as having been removed under the various removal reason categories shown. Because a child can have multiple reasons for their removal, the total number of documented reasons exceeds the total number of children removed.

INCOMING CASELOADS AND OVERAGE RATES: The first pair of charts display the number of incoming AND cases and Motions for Permanent Custody (PC) cases filed each quarter in Ohio's juvenile courts. The second pair of charts display the percentage of AND and PC cases pending at the end of each quarter which have been pending (in pre-dispositional status) for longer than the applicable case processing time standard under Sup.R. 39 (three months for AND, and nine months for PC).
